Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	**Stage 1 Discover & Sign Up**	**Stage 2 Upload & Generate**	**Stage 3 Study & Revise**
Actions *What does the customer do?*	• Hears about Learnmate from friends or classmates • Registers with name, email and password • Logs in to the app	• Uploads notes as .txt, .md or .pdf (max 5 MB) • Requests summary, flashcards, quiz and study plan • Waits for the AI to process the material	• Reads the summary and reviews flashcards • Attempts the quiz and checks answers • Follows the study plan day by day
Touchpoint *What part of the service do they interact with?*	• Sign-up and login pages • Auth API (/api/auth) • JWT session token	• File upload form • Materials API (/api/materials) • Gemini AI processing	• Material dashboard • Flashcards and quiz screens • Saved study plan
Customer Thought *What is the customer thinking?*	• Will this actually save me time? • Is my account and data safe? • Is signing up easy?	• Will it accept my file format? • How long will the AI take? • Will the summary be accurate?	• Now I know what to focus on • These questions match my syllabus • I can track what is left to study
Customer Feeling *What is the customer feeling?*	• Curious and hopeful • Slightly cautious about sharing notes • Relieved if sign-up is quick	• Impatient while waiting • Frustrated if upload fails or file is rejected • Excited to see results	• Confident and organized • Motivated by a clear plan • Less stressed before exams
Process Ownership *Who is in the lead on this?*	• Backend team (auth and security) • Frontend team (sign-up UI)	• Backend team (upload and AI integration) • AI / prompt engineering owner	• Frontend team (study screens) • Admin (content and user monitoring)
Opportunities *How can we improve this stage?*	• Add Google sign-in and email verification • Show a short onboarding guide • Add password reset	• Show a progress indicator during AI processing • Add clear file error messages • Support DOCX and images (OCR)	• Track quiz scores and progress over time • Add study reminders • Let users export flashcards
